Communications & Electronics, Inc.

Meridian – 5008

- Since the M5008 is loop powered, you can be sure your display for Feature/Line Indicators will always work, even during power outages.
- Larger buttons on the keypad make dialing easy and quick.
- Eight line/feature keys let you configure the M5008 to suit your requirements.
- The M5008 includes eight programmable line/feature keys as well as conveniently placed, color-coded Hold and Release keys for improved efficiency and better call processing.
- The built-in speaker permits on-hook dialing and makes it easy to access voice mail.
- The Integrated Wall Mount Kit gives you everything you need to install the M5008 on the wall if you wish.
- Digital

Colors: Black, Ash and Grey

Meridian – 5208

- The M5208 is MADN-capable, letting you program your set for appearances of other users directory numbers. Call coverage is simple.
- The 2-line X 24-character liquid crystal display can tell you who is calling and whether the call was transferred or forwarded. Armed with such information, you can answer personally and appropriately.
- Visual ringing indication alerts you to an incoming call with a flashing lamp. Even if you are on your primary line, you will not miss important calls.
- The M5208 includes eight programmable line/feature keys as well as conveniently placed, color-coded Hold and Release keys for improved efficiency and better call processing.
- The built-in speaker permits on-hook dialing and makes it easy to access voice mail.
- The M5208 is loop powered. Because local power is not required, your set will retain display capabilities even during a power outage.
- Digital

Colors: Black, Ash and Grey

- The M5216 is headset compatible.
- The 2-line X 24-character liquid crystal display can deliver call information such as call progress, queue status, and calling name and number. Agents or the attendant can use this data to greet callers and speed transactions.
- Fourteen programmable line/feature keys let you tailor the set to fit your requirements. Assign additional directory numbers or special ACD features used by your organization.
- The M5216 supports a maximum of two M522 Meridian Mate expansion units to let you expand your answering position in a modular fashion.
- Digital

Colors: Black, Ash and Grey

- **Hands free operation permits you to engage in a conference call while simultaneously performing others tasks. During the conference call, use the Mute key to confer confidentially with another person in the room.**
- **Thirteen programmable line/feature keys let you tailor your set to suit your needs. The Program key lets you further customize local features on your set, such as time and date.**
- **The M5316 gives you one-button access to the MDC features you use most, including Speed Call. The built-in Call Timer makes it easy to monitor calls. And the Speaker allows convenient on-hook dialing and access to voice mail.**
- **The 2-line X 24-character liquid crystal display ensures easy access to call information, including date and time.**
- **Digital**

Colors: Black, Ash and Grey

- **The M522 Meridian Mate Expansion Module is compatible with both the M5216 and M5316. The M522 is a 22-button expansion unit, with associated LCD indicators, providing additional keys for lines or features. Up to two expansions can be used, for a total of 44 extra programmable buttons. Combined with Meridian Digital Centrex, the M522 offers effective mini-console capabilities.**
- **Used in conjunction with Direct Station Select (DSS), the attendant can monitor and select a free station with the touch of a button. Busy Lamp Field (BLF) allows the attendant to visually monitor who is available to take a call. Camp-on allows the attendant to transfer a call to a busy station, placing the caller on hold until the station is available.**
- **Digital**
