

"Assuring the highest levels of patient care means having instant access to information. With Responder® NET, the information is at our fingertips."

The NET Effect

Easy-Access to Useful Information

<< Staff can access everything from patient calls to caregiver information and patient whiteboards from any PC monitor on the floor. >>

Continuity of Care While Ensuring Privacy

Having patient information instantly available is critical when providing the best quality of care. Responder® NET's electronic patient whiteboard makes that information available *instantly*. Caregivers can easily view and update patient information, improving continuity of care from shift to shift. Your patients are ensured the very highest level of confidentiality because notes are visible only to those who need to see them.

Improved Staff-to-Staff Communication

Keeping staff connected is critical to efficiently performing daily tasks. Figuring out which wireless devices they are carrying and what their extensions are can be frustrating. With the Staff Directory function, that information is instantly accessible on any networked PC. Staff members can easily contact one another – saving time, effort and freeing them to focus on patient care.

Instant Notification - Anytime, Anywhere

Responder NET takes nurse call performance a giant step forward with a patient call display feature that can sit on any networked PC. Now Nursing Administration can be instantly notified of incoming patient calls from the entire facility - including code blue calls for a centralized code blue notification system.

<< Intuitive screen menus organize and simplify critical staff, room and patient information with the click of a mouse, the touch of a finger. >>

Room	Room	Room	Room	Room	Room	Room	Room	Room	Room
101	102	103	104	105	106	107	108	109	110

Real Time Patient Calls

- > Immediately see pending patient calls and service requests - *all* on one screen.
- > Facility and campus-wide centralized code blue display capability.

Staff	Staff	Staff	Staff	Staff	Staff	Staff	Staff	Staff	Staff
1	2	3	4	5	6	7	8	9	10

Staff Directory

- > Contact staff quickly to relay critical information.
- > Instantly access staff information including wireless devices.

Patient	Patient	Patient	Patient	Patient	Patient	Patient	Patient	Patient	Patient
1	2	3	4	5	6	7	8	9	10

Patient Whiteboard

- > ADT/HL-7 Integration for easy access to real-time patient information such as acuity and attending doctor.
- > Re-creates traditional whiteboard while protecting patient's privacy.
- > Team members can instantly input and access patient notes from any networked PC.
